About Me

Final-year B.Tech student in Computer Science and Engineering with a specialization in Artificial Intelligence and Machine Learning at Mohan Babu University. Passionate about software engineering and building scalable applications to solve real-world problems. Strong interest in full-stack development, problem-solving, and continuous learning.

Education

Mohan Babu University, B.Tech in Artificial Intelligence and Machine Learning — Sept 2023 – May 2027
- GPA: 9.22/10.0

Narayana Junior College, Intermediate — Jun 2021 – Mar 2023
- Percentage: 91.3%

Gurukul VidyaPeeth High School, Secondary School Certificate (SSC) — Jun 2021
- Percentage: 100%

Internship Experience

Infosys Springboard Internship 7.0 (Remote). — *Java Developer Intern* — June 2026 – present
- Developed a full-stack water management platform using Java, Spring Boot, React, and PostgreSQL.
- Implemented REST APIs, JWT authentication, and role-based authorization.
- Built features for water consumption tracking, automated billing, payments, alerts, and analytics
- Integrated Razorpay payments and PDF/Excel report generation

Tamizhan Skills (Remote). — *Web Development Intern* — June 2025 – July 2025
- Completed the RISE Internship Program focused on Web Development.
- Participated in hands-on learning sessions and completed assigned tasks related to building and improving web applications.
- Learned and applied web development technologies such as HTML, CSS, JavaScript, and basic backend concepts.

Projects

Gradenix - Student Performance Prediction
- Developed a machine learning application to predict student academic performance using historical data.
- Performed data preprocessing, feature engineering, model training, and model evaluation using supervised learning algorithms.
- Built an interactive web interface to generate real-time predictions based on user input.
- **Tech Stack**: Python, Streamlit, Scikit-Learn, Pandas, NumPy

ResQFlow – Smart Disaster Coordination & Resource Allocation Platform
- Developed a disaster coordination platform with role-based dashboards for citizens, volunteers, hospitals, and administrators to streamline emergency response workflows.
- Built incident reporting, resource management, and AI-powered operations modules.
- **Tech Stack**: React, TypeScript, Vite, Tailwind CSS, TanStack Router, Firebase Authentication.

Technical Skills

Languages: Java, SQL

AI/ML: AI &ML Fundamentals, Classification.

Web Technologies: HTML, CSS, JavaScript, React.js.

Core Concepts: Data Structures & Algorithms, OOP, DBMS,

Development Tools: VS Code, Eclipse, IntelliJ IDEA, MySQL Workbench, Git, GitHub

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management

Certifications

- Microsoft Certified: Azure AI Fundamentals (AI-901)
- Oracle Cloud Infrastructure Certified AI Foundations Associate
- ServiceNow Certified Implementation Specialist – Data Foundations (CMDB & CSDM)
